

WORKSHOP ON OPEN SCIENCE

KNOWLEDGE FOR ALL: FROM CONCEPTS TO ACTION

LISBON, 29 MARCH 2016, THALIA THEATRE

KEY TOPICS

OPEN SCIENCE TO BOOST SCIENTIFIC EXCELLENCE IN EUROPE

OPEN SCIENCE AS A PATH TO DEMOCRATISE ACCESS TO KNOWLEDGE

SOCIAL APPROPRIATION OF SCIENCE

Based on the discussion and results from the Brussels's Preparatory Meeting for the Open Science Conference under the Dutch Presidency of the Council of the EU from 4 to 5 April 2016 in Amsterdam, this meeting will focus on the articulation of conclusions to be adopted by the Competitiveness Council in May. Open Access to scientific publications and to scientific data agenda with a focus on the share/re-use concept, new methods and a more inclusive way of production/construction, validation and dissemination of knowledge.

We will learn from previously selected case studies related to each of the action lines outlined above. The framework proposed fits conceptual and experimental projects that interconnect open science with social and cultural demands and incentives, putting in perspective the traditional scientific workflow. The approximation between science and culture should be explicitly motivated.

A concerted strategy at this level may enable the enlargement of the social support for science – while stimulating scientific culture and literacy processes – resulting in substantial changes in the cadence of the open science appropriation. Reflection on Open Science and its practicalities should include, but also go beyond the knowledge transfer debate. The meeting proposes a complementary path – “learning open science with the society”, highlighting the above mentioned broader societal perspective as the path to follow, but also underlining the importance of “openness” in all its facets (knowledge sharing, use and associated ownership and intellectual property issues). In sum, touching upon the structural obstacles in the context of a networked knowledge economy.

The addressing and involvement of the relevant stakeholders such as the Members States, the European institutions and the knowledge institutions are key to the success of the meeting as a concerted strategy to enlarge the social support for science - while stimulating scientific culture and literacy processes - resulting in substantial changes in the cadence of the open science appropriation needs to be implemented by the relevant institutions and organisations at various levels.

WORKSHOP ON OPEN SCIENCE
KNOWLEDGE FOR ALL: FROM CONCEPTS TO ACTION
LISBON, 29 MARCH, THALIA THEATRE

PROVISIONAL PROGRAMME

08:30 **REGISTRATION**

09:00 **OPENING**

Carlos Moedas, *European Commissioner for Research, Science and Innovation* (Video message)

Fernanda Rollo, *Secretary of State for Science, Technology and Higher Education, Government of Portugal*

Ana Sanchez, *Member of the Board, Fundação para a Ciência e a Tecnologia, Portugal*

09:30 **Towards an Open Science paradigm – Setting the scene**

MODERATOR Ron Dekker, *NWO - Dutch Research Council*

PARTICIPANTS Mark Patterson, *Executive Director, eLIFE*

Eloy Rodrigues, *University of Minho*

Barend Mons, *Chair, High Level Expert Group “European Open Science Cloud”*

Wainer Lusoli, *Policy Officer, European Commission*

11:00 **COFFEE-BREAK**

11:30 **ROUND TABLE – Involvement**

MODERATOR Carlos Catalão, *Ciência Viva, National Agency for Scientific and Technological Culture*

Connected Communities ‘Access to Research’ (A2R) project, by James Perham-Merchant

DISCUSSANT Ivo Neto, *University of Minho*

Memory for All: Involvement for knowledge mobilisation - Contributions from Portuguese experiences, by *Inês Castaño, Luisa Seixas and Margarida Portela, Instituto de História Contemporânea*

DISCUSSANT António Firmino da Costa, *Lisbon University Institute*

Socientize: Citizen Science Projects, by Rui. M. M. Brito, *University of Coimbra*

DISCUSSANT Margreet Bouma, *Dutch Ministry of Science*

WORKSHOP ON OPEN SCIENCE
KNOWLEDGE FOR ALL: FROM CONCEPTS TO ACTION
LISBON, 29 MARCH, THALIA THEATRE

13:00 **LUNCH**

14:00 **ROUND TABLE – Impact**

MODERATOR João Costa, *Secretary of State for Education*

Open Up - OPENING UP new methods, indicators and tools for peer review, dissemination of research results, and impact measurement, by Wolfram Horstmann, *University of Göttingen*

DISCUSSANT Maria Rute André, *University of Aveiro*

Lingoa project, by Johan Rooryck, *Leiden University*

DISCUSSANT Delfim Leão, *University of Coimbra*

Doktormedia.nl: a platform of doctors translating medical publications for the public, by Tijs Stehmann

DISCUSSANT Mark Patterson, *eLIFE*

Open Access Network Austria: set up information network, by Patrick Danowski (OANA)

DISCUSSANT Rita Morais, *European University Association*

16:00 **COFFEE-BREAK**

16:15 **ROUND TABLE – discussion on contributions from and actions by stakeholders**

MODERATOR Lígia Ribeiro, *University of Porto*

PARTICIPANTS

Rita Morais, *European University Association*

Wainer Lusoli, *European Commission*

João Nuno Ferreira, *Fundação para a Ciência e a Tecnologia, Portugal*

17:15 **Towards Amsterdam – Conclusions and closing**

Ron Dekker, *Programme Coordinator, Netherlands Presidency Conference on Open Science*
